Implementation

Children with additional needs will be welcomed into the service. Prior to enrolment, educators/staff will assess the child to determine the child's needs and level of support that may be required and evaluate if the service is able to enroll the child.

The service has access to Inclusion Support funding via Inclusion Support Agencies, which is funded by the Australian Government. Funding will be granted on specific criteria that the child is required to meet. Inclusion Support Agencies will assist educators/staff with the integration of children with additional needs and will aid educators/staff to compile an individual program for each child.

When appropriate, professionals such as speech and occupational pathologists, paediatricians, and physiotherapists etc. will be consulted with parental consent to assist educators/staff with appropriate information and strategies regarding the child.

Our service will treat each child as an individual and will support his/her own additional need.

Children will be encouraged to fully participate (with any necessary help and support) in the program.

There will be in-services and training opportunities for all educators/staff on particular needs throughout the year and they will be encouraged to attend.

Educators/staff uses effective, initialised strategies with each child to accommodate additional needs.

This Approved Provider/Nominated Supervisor will ensure that this policy is maintained and implemented at all times.
