

Sun Protection Policy

2017 / 2018

Date:	25 Oct 2017
Version:	1.
Last Amended By:	Susan Wilkinson
Next Review:	Oct 2018
Position:	Nominated Supervisor / Director / Teacher / Administration

Purpose

This sun protection policy has been developed to protect all children and staff from the harmful effects of ultraviolet (UV) radiation from the sun.

Strategies

Outdoor Activities

From October to March sun protection is required at all times. Extra sun protection is needed between 11am and 3pm and during this period outdoor activities should be minimised.

Minimising outdoor activities includes reducing both the number of times (frequency) and the length of time (duration) children are outside.

- From April to September (excluding June and July) outdoor activity can take place at any time. However, from 10am – 2pm sun protection is required.
- In June and July sun protection is not required. Extra care is needed for services in the far west and north of NSW and for all children who have very fair skin. All sun protection measures will be considered when planning excursions and incursions.

Shade

All outdoor activities will be planned to occur in shaded areas. Play activities will be set up in the shade and moved throughout the day to take advantage of shade patterns. The centre will provide and maintain adequate shade for outdoor play. Shade options can include a combination of portable, natural and built shade. Regular shade assessments should be conducted to monitor existing shade structures and assist in planning for additional shade.

Hats

Staff and children are required to wear sun safe hats that protect their face, neck and ears. A sun safe hat is:

- Legionnaire hat.
- Bucket hat with a deep crown and brim size of at least 5cm (adults 6cm).
- Broad brimmed hat with a brim size of at least 6cm (adults 7.5cm).

Please note: Baseball caps or visors do not provide enough sun protection and therefore are not recommended. Children without a sun safe hat will be asked to play in an area protected from the sun (e.g. under shade, veranda or indoors) or can be provided with a spare hat.

Clothing

When outdoors, staff and children will wear sun safe clothing that covers as much of the skin (especially the shoulders, back and stomach) as possible.

This includes wearing:

- Loose fitting shirts and dresses with sleeves and collars or covered neckline.
- Longer style skirts, shorts and trousers.

Children who are not wearing sun safe clothing can be provided with spare clothing. Please note: Midriff, crop or singlet tops do not provide enough sun protection and therefore are not recommended.

Sunscreen

All staff and children will apply SPF30+ broad-spectrum water-resistant sunscreen 20 minutes before going outdoors and reapply every 2 hours. Sunscreen is stored in a cool, dry place and the use-by-date monitored.

Babies

Babies under 12 months will not be exposed to direct sunlight and are to remain in dense shade when outside. They will wear sun safe hats and clothing and small amounts of SPF30+ broad-spectrum water resistant sunscreen may be applied to their exposed skin.

Role Modelling

Staff will act as role models and demonstrate sun safe behaviour by: Wearing a sun safe hat (see Hats). Wearing sun safe clothing (see Clothing). Applying SPF30+ broad-spectrum water-resistant sunscreen 20 minutes before going outdoors. Using and promoting shade. Wearing sunglasses that meet the Australian Standard 1067 (optional). Families and visitors are encouraged to role model positive sun safe behaviour
